

GROUPE RENAULT

**MANUFACTURER OF
INNOVATIVE VEHICLES**

OUR BUSINESS

SINCE MORE THAN 25 YEARS, PVI DEVELOPS AND MANUFACTURES INNOVATIVE VEHICLES FOR THE EUROPEAN MARKET.

PVI is an expert in the development and the production of new energy vehicles.

We help our customers to convert their fleets of commercial vehicles to electric, hybrid, and CNG technologies.

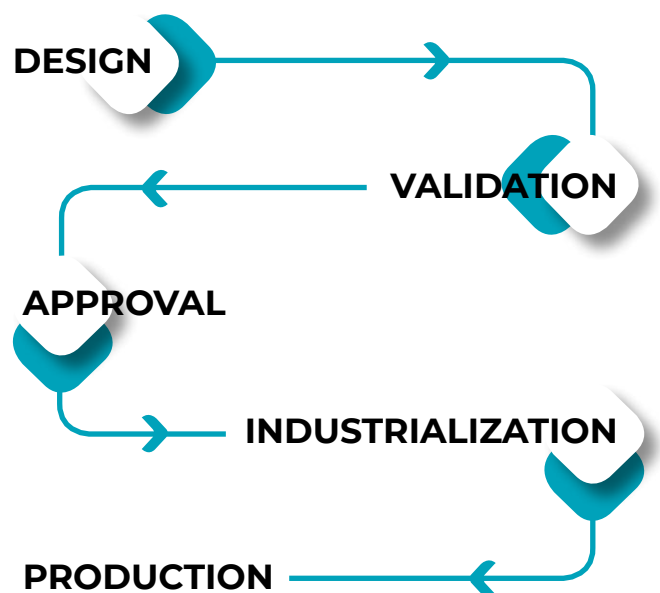

OUR KNOW-HOW

DEVELOPMENT

Our engineers develop, test, manage certifications, and design the assembly process of the innovative solutions proposed by PVI.

MANUFACTURING

Our flexible manufacturing plant can be adapted to the type of platform to produce.
PVI's assembly technicians are trained to work with variable volumes on different kind of vehicles.

CURRENTLY IN PRODUCTION AT PVI PLANT

We propose to our customers some innovative solutions branded "PVI", and we are also working for other manufacturers by conventional vehicles to new energy platforms.

PVI's workshop can produce up to 3000 units per year.
